Transport Security Policy

Policy Number: CP22007
Effective Date: 06/02/2023 Review Date: 01/02/2027

Transport is committed to providing a safe and secure transport environment, contributing to a secure transport network that will make NSW a better place to live, work and visit.

Transport Security Policy is based on the following principles:

- Holistic, integrated, coordinated and multimodal security approach are the core elements towards the information, personnel and physical security at Transport.
- Protection of our customers, people, information, assets, infrastructure, finances and reputation from security risks is Transport's priority.
- A positive security culture is essential to ensure that everyone within Transport is aware of their security responsibilities and obligations

To achieve this, Transport is committed to the following protective security outcomes:

- **Security planning and risk assessment:** Transport is committed to taking a risk-based and data-driven approach to security to focus our efforts on emerging and credible threats to our customers, people, information and assets.
- **Security governance for contractors:** Security arrangements must be in place with contractors of goods and services to ensure that they support an appropriate level of security to all Transport standards.
- **Information security:** Access to and protection of sensitive and classified information must be managed appropriately.
  Personnel security: Ensure that there is ongoing assessment and management of Transport staff in Designated Security Assessed Positions (DSAPs) to ensure their eligibility and suitability to hold an appropriate level of security clearance.

- **Physical security:** Controls and treatments must be applied in accordance with relevant Standards and industry best practices.
- **International travel:** Ensure that staff's safety and security is supported and such risks are managed when staff engage in international travel for Transport business.
- **Critical infrastructure:** Identify and protect critical infrastructure and ensure resilience throughout its lifecycle.
- **Security reporting data and analysis:** Report, assess and communicate incidents and trends to support evidence-based decision-making and executive awareness and reporting.
- **Education and training:** Collaborate, develop, deliver and evaluate security exercises, education and training to build capability and resilience.

OFFICIAL

This policy applies to staff performing work for the following:

- Transport for NSW
- Department of Transport
- Sydney Trains
- NSW Trains
- The Point to Point Transport Commissioner

'Staff' includes all permanent, temporary and casual staff, staff seconded from another organisation and contingent workers including labour hire, professional services contractors and consultants.

This policy is to be read in conjunction with the Transport Security Strategy.

Rob Sharp, Secretary
