

# Killara Station Upgrade

## Transport Access Program

November 2023

Transport for NSW acknowledges the people of the Darug and Guringai Nations as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

Transport for NSW is upgrading Killara Station as part of the Transport Access Program (TAP) to make it easier for everyone to access, including people with a disability or limited mobility, parents/carers with prams and customers with luggage.

### What work are we doing?

Work planned for November includes:

- continuing work on facilities, including the station building
- completing Werona Avenue's footpath and landscaping work
- finishing work for the new bridge and lift shafts
- testing the new lifts
- finalising and testing electrical work in the station building and footbridge
- continuing work on the deflection walls.

### When will we will be working?

Working hours are **Monday to Friday, 7am to 6pm, and Saturday 8am to 1pm.**

We will notify nearby residents and businesses in advance if we need to work outside these times.

### What will this mean for you?

Equipment we will be using includes rattle guns, excavators, generators, elevated work platforms, tipper concrete trucks, welding kit, and powered hand tools.

### Managing our impact

The project will minimise impacts from our work on the community and the environment by:

- fencing work areas for safety and security
- reducing noise disruption as much as possible by turning off equipment when not in use and using non-tonal reversing beepers.

### Powell Street access point

The Sydney Trains access point at Powell Street will be used by construction and rail workers to safely access the rail corridor and temporary storage during construction and on weekends when trains are not running.
