

# Killara Station Upgrade

## Transport Access Program

December 2023/January 2024

Transport for NSW acknowledges the people of the Darug and Guringai Nations as the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The Killara station upgrade was completed and open to passengers in early November this year. Some finishing work is required on the deflection walls and station surrounds over the coming months.

### What work are we doing?

Upcoming work includes:

- continuing work on the deflection walls
- general maintenance and finalisation work.

### When will we be working?

Working hours are **Monday to Friday, 7am to 6pm, and Saturday 8am to 1pm.**

### Managing our impact

The project will minimise impact on the community and the environment by:

- fencing work areas for safety and security
- reducing noise as much as possible by turning off equipment when not in use and using non-tonal reversing beepers.

### Out of hours work

The night work which started in November will continue into early December. We will be working from **10pm, Friday 1 December to 3am, Monday 4 December**, weather permitting. Activities during this period will include backfilling, landscaping

and painting of and around the deflection walls, concreting work, high-pressure cleaning and removal or construction materials via Culworth Avenue and Powell Street access points and.

From **Monday 8 to Friday 12 January 2024** and **Friday 19 to Monday 22 January 2024**, work will continue on the deflection walls. Any directly impacted residents will be notified ahead of time.

### What will this mean for you?

Equipment we will be using includes crane trucks, powered hand tools, excavators, elevated work platforms, lighting towers, concrete trucks and pumps, pressure cleaner, dump trucks and manual hand tools.

### Powell Street access point

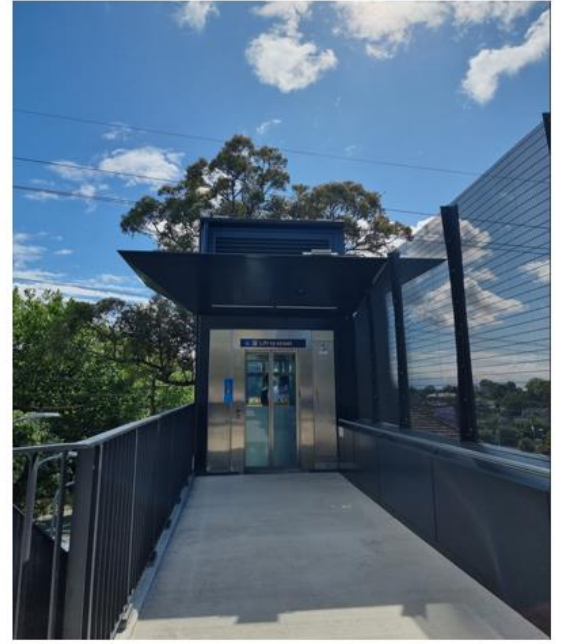

The Sydney Trains access point at Powell Street will be used by construction and rail workers to safely access the rail corridor and temporary storage during construction and on weekends when trains are not running.

### End of year construction work break

From **Friday 22 December 2023 to Monday 8 January 2024** our project site and offices will be closed over the holiday period.

We wish you and your loved ones a safe and happy holiday season and thank you for your patience during our work to upgrade the station throughout 2023.
