

Yass Junction Station upgrade

Safe Accessible Transport

Community notification

May and June 2024

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The Safe Accessible Transport program aims to make public transport safe, inclusive, and easy to use for all passengers, especially people with disabilities, older people, people with prams or luggage and others who may be experiencing mobility issues.

This program aims to achieve Disability Standards for Accessible Public Transport (DSAPT) compliance, improving amenity, access and safety and acknowledging the important role these locations have to the communities they serve.

Community and stakeholder engagement

Transport for NSW will engage with specific groups about accessibility upgrades to the Yass Junction train station. These specific groups include people with accessibility needs including those with disabilities and their carers, Aboriginal and Torres Strait Islander peoples and women and children from the local community.

This will involve direct engagement with women and children to understand their perceptions of safety, and collaborative Connecting with Country events to recognise the unique relationship between Aboriginal and Torres Strait Islander peoples and their ancestral lands.

Transport will also invite feedback on the concept design and precinct improvements as the project progresses.

Early investigation work

Site surveys and utility searches will begin at Yass Junction Station in May.

Work will be carried out during between **7am and 5pm weekdays** from **Monday 20 May until Sunday 30 June**.

Work will not be noisy and there will be no impact to services or the community.

Have your say

We want to hear from people with accessibility needs and their carers on the design of the Yass Junction Station upgrade.

We are holding two online design workshops to better understand what barriers exist for you when using train stations, and how we could better design Yass Junction Station to remove those barriers.

If you would like to participate in our online workshops, please register your interest via the QR code or online at

www.haveyoursay.nsw.gov.au/design-accessible-stations and we will be in contact with you to share all the important details. There is also the option to request assistance should you need it to participate.
